

Samsung 16Kg Washing Machine with AddWash

The WF10J65000EW has a substantial 126-litre drum and 16kg capacity. It features Samsung's unique AddWash Hatch which allows for additional items to be added mid cycle as well as their EcoBubble System which, by injecting air into the water / detergent mixture, produces a thinner foam better able to penetrate the textile fibres in order to remove stains.

This type of engine consumes less electricity than a conventional electric model and is significantly quieter. The spin speed is limited to 1,200 rpm in order to reduce noise and increase durability.

This appliance is sold with a 2 years parts and labour manufactures warranty.

Samsung		
Model Name		WF16J6500
Capacity	kg	16
Energy Efficiency on a scale from D (least efficient) to A+++ (most efficient)		A++
Awarded an "EU Ecolabel award" under regulation (EC) No.66/2010		
Annual energy consumption (it is based on 220 standard washing cycles for standard cotton at 60 °C and 40 °C at full and partial load, and the consumption of off and left-on modes. Actual energy consumption will depend on how the appliance is used)	kWh/yr	410
Energy Consumption		
The standard 60 °C cotton programme at full load	kWh	2,27
The standard 60 °C cotton programme at partial load	kWh	1,75
The standard 40 °C cotton programme at partial load	kWh	1,29
Weighed power consumption of the off-mode	W	0,48
Weighed power consumption of the left-on mode	W	5
Annual water consumption (it is based on 220 standard washing cycles for standard cotton course at 60 °C and 40 °C at full and partial load. Actual water consumption will depend on how the appliance is used.)	L/yr	16500
Spin efficiency class		
Spin -drying efficiency class on a scale from G		B
Maximum Spin Speed	rpm	1200
Residual moisture	%	53
The eCotton 60 °C and eCotton 40 °C programmes are the 'standard cotton 60 °C programme' and the 'standard cotton 40 °C programme'. They are suitable to clean normally soiled cotton laundry and they are the most efficient (concerning water and energy consumption) for this type of laundry. In these the actual water temperature may differ from the declared temperature.		
Programme duration of the standard programme		
The standard 60 °C cotton programme at full load	min	245
The standard 60 °C cotton programme at partial load	min	225
The standard 40 °C cotton programme at partial load	min	195
The duration of the left-on mode (TI)	min	2
Airborne acoustical noise emissions expressed in dB(A) re 1 pW and rounded to the nearest integer during the washing and spinning phases for the standard 60 °C cotton programme at full load;		
Wash	dB (A) re 1 pW	60
Spin	dB (A) re 1 pW	74
Free Standing		

WF16J6500EV/EU

Samsung 16Kg Washing Machine with AddWash

General Information	
Washing/Loading Capacity	16
Max Spin Speed (rpm)	1200
Body Colour	Black Stainless
Door Colour	Crystal Blue
